No. 4780 P. 2

January 17, 2017

Patient: Marthilde Brzycki

Date of Visit: 1/17/2017

To Whom It May Concern:

It is my medical opinion that Marthilde Brzycki may return to work on February 2 but she does require a private quiet place to do her work to avoid anxiety.

If you have any questions or concerns, please don't hesitate to call.

Sincerely,

ELIZABETH SCHURINGA, ARNP
